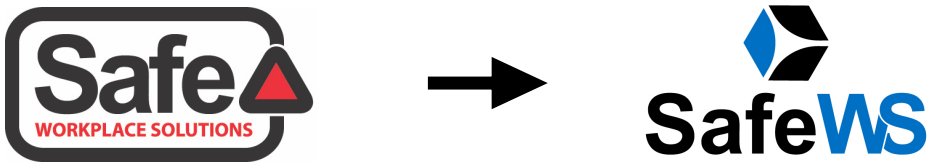
Dear Valued Partner,

RE: - Safe Workplace Solutions Rebrand

Safe Workplace Solutions is proud to announce that we have updated our logo to a more modern identity that better represents the scale and capability of our compliance services.



This transformation reflects our focus on delivering dependable, high-value outcomes across fire, electrical, safety, and training compliance.

As our business has grown, it became important that our brand evolves to match the quality, technology, and expertise we provide.

Rest assured, our business structure, ownership, service commitments and agreements remain unchanged.

What's next? You will notice updated branding across reports, asset registers, certificates, invoices, quotes, uniforms, and vehicles. A new website is in development and will be soon launched.

We are excited to share this next phase of our journey with you and thank you for your continued partnership.

Regards,

Cam Gott
Managing Director
