01 OVERVIEW

SAFE Workplace Solutions (SAFE) is a specialist **commercial building compliance company** providing integrated fire, electrical and safety services to property owners, facility managers and organisations across Tasmania.

We exist to remove compliance risk from commercial environments by delivering **planned, documented and audit-ready compliance systems** under a single, accountable provider.

SAFE is not a reactive trade service.
We are a **long-term compliance partner**, trusted to protect buildings, people and reputations.

WHY SAFE?

Clients choose SAFE because we deliver:

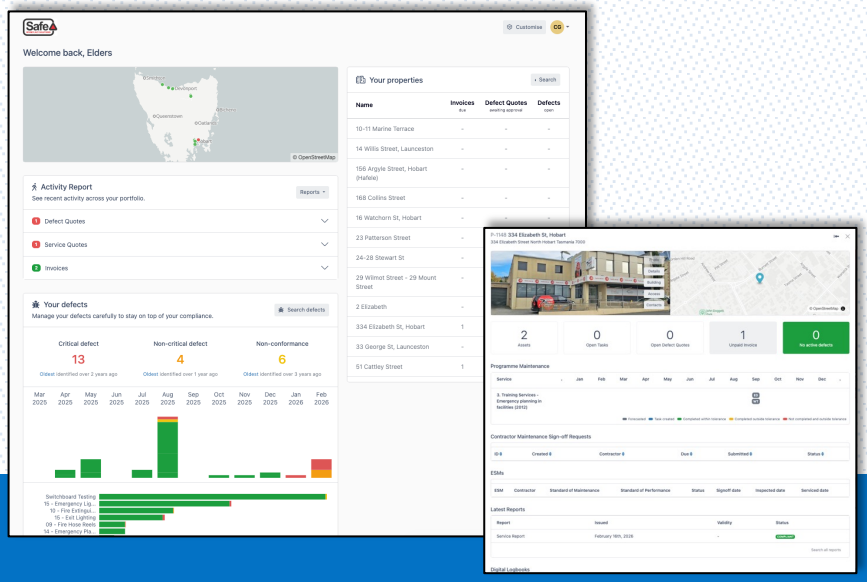
- **Compliance certainty** — audit-ready documentation on every visit
- **Reduced risk exposure** — preventative systems, not reactive fixes
- **Operational efficiency** — fewer vendors, clearer accountability
- **Professional standards** — qualified technicians, structured processes
- **Predictable outcomes** — planned maintenance and transparent reporting

We measure success not by jobs completed, but by **risk reduced and confidence delivered**.

02
WHAT WE DO

SAFE delivers end-to-end compliance management for commercial buildings, including:

- Fire protection testing and maintenance
- Electrical compliance and testing
- Warden and safety training
- Workplace health and safety inspections
- Asset registers and compliance reporting
- Preventative maintenance programs
- Multi-site compliance contracts
- Rapid response and corrective actions



OUR APPROACH

Most commercial buildings rely on multiple contractors for compliance, creating gaps in responsibility, reporting and accountability.

SAFE solves this by consolidating compliance into:

- **One provider**
- **One contract**
- **One reporting system**
- **One point of accountability**

This approach reduces administrative burden, improves visibility, lowers risk exposure and ensures compliance is consistently maintained — not just when issues arise.

Every service we provide is **documented, traceable and audit-ready.**

SafeWS

03
WHO WE WORK WITH

SAFE partners with organisations that manage risk, people and assets, including:

- Commercial property managers
- Facility managers
- Corporate and multi-site operators
- Strata and owner's corporations
- Government and institutional clients

Our clients value **certainty, reliability and documentation** over reactive service.

SafeWS

COMPLIANCE & REPORTING

Compliance is only as strong as its documentation.

SAFE provides:

- ✓ Digital asset registers
- ✓ Inspection and testing reports
- ✓ Compliance summaries
- ✓ Risk identification and action tracking
- ✓ Audit-ready records aligned with relevant standards

Our reporting is designed to withstand regulatory scrutiny and provide complete visibility to stakeholders.

04
OUR COMMITMENT

SAFE is committed to:

- ✓ Doing things right
- ✓ Documenting everything
- ✓ Preventing problems before they occur
- ✓ Acting with integrity and accountability
- ✓ Delivering compliance without compromise

Every action we take reduces risk for our clients and protects the people who rely on their buildings every day.

We deliver compliance you can trust, backed by clear reporting, proactive maintenance and rapid response.

One provider, one contract, complete confidence.
